

UArctic Thematic Network on
Local-scale Planning for Climate Resilience

SPEAKER SERIES

Planning the Great Acceleration

Dr. Mark Groulx

Associate Professor,
University of Northern
British Columbia

Moving beyond the prototypical model of the North American city, Mark will present a story that links the industrial structure of a burgeoning hinterland region to the reproduction of a northern suburbanism tailor built for Canada's resource dependent communities during the Great Acceleration.

VIRTUAL TALK
FEB. 23, 2026
12-1pm (MST)
