Background & Rationale:

In following with UARctic's legal obligations, the Constitution and UARctic Bylaws, Annual Report is one of the reporting documents UARctic is required to produce every year. The Annual Report is to be presented to members for adoption during the annual UARctic Assembly meeting.

During its recent meeting (April 2022), the Board of UARctic approved the UARctic Annual Report 2022 presented.

The UARctic Annual Report 2022 includes two documents: UARctic at a Glance 2022 and Action Plan Indicators 2022. The first of them includes report of Thematic Networks' and Institutes' activities, map and list of members at the end of year 2021, a numeral report on membership, online presence, Thematic Networks and Institutes, distribution of members, project grants and north2north student mobility.
